

Hot summer and cool drinks...

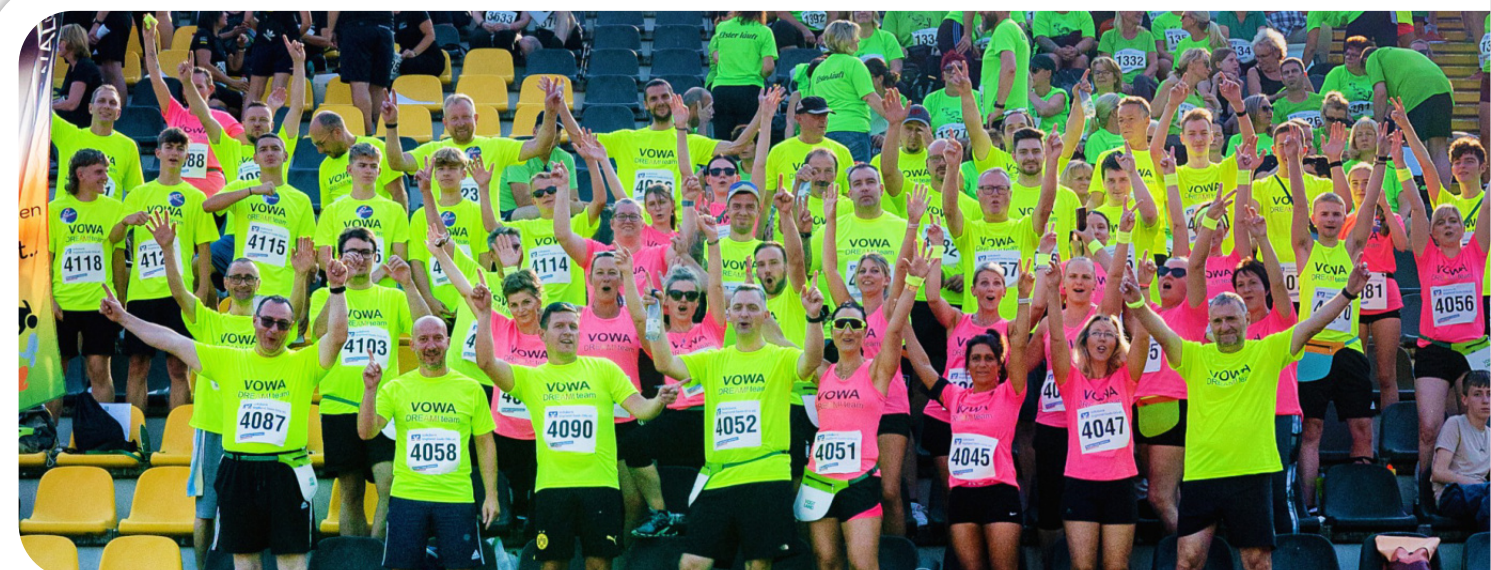

Grill & Chill at Vowalon

On August 17, it was “Party Time” in perfect summer weather! Under the motto **VOWAgrill&chill**, the guests feasted, danced and celebrated. With delicious specialties from the grill and a generous buffet, no one was left hungry. A special musical highlight set the right mood: The **Singing Barkeepers**. These extraordinary musicians from Nuremberg not only sing hits from all genres, they also know how to mix cocktails – and all at the same time! This guaranteed a good mood and with plenty of cool drinks, we were able to let the evening fade away in a chilled manner.

Despite the HEAT, we are GREAT!

2nd place in the Volksbank company run

With tireless commitment and plenty of drinks, we were able to successfully defend our 2nd place in this year’s Volksbank company run! Despite the high summer temperatures and a more demanding route, our VOWA-DREAMteam showed great sportsmanship on August 29 and covered the 5 km in a remarkable time. With 85 participants, we have increased again this year and hope to be able to expand this even further next year. The company run in Plauen is a charity event in aid of children with cancer, in which we have been participating since 2021.

Ready to refine the world...

...News from our trainees - And those who would like to become one...

Welcome to the team!
Greeting our new trainees

On August 19, we warmly welcomed our new trainees. They are now starting their training at our company headquarters in Treuen and will be a great addition to our team. This year, we are pleased to welcome two product finishers, an IT specialist, an industrial clerk and a logistics specialist. Welcome and good luck!

Successfully presented:
Training fair in Plauen 2024

Because we intend to attract hard-working trainees again next year, we were out in force at the Vogtland Training Fair in Plauen on August 22. Our team explained the wide range of training opportunities we offer to the young people and was very pleased to receive many applications afterwards.

Cast off!

Water crate race in Rodewisch

On July 27, the message was: “Grab your paddles!” at the 3rd Rodewisch water crate race around the castle island. Under the motto “The Golden 20s – Then and Now”, 22 self-made water crate teams competed against each other. Our trainees also gave free rein to their creativity and designed a VOWA water crate – with active support from our engineering department. In addition to speed, originality was also evaluated, and so we were pleased to achieve a place in the mid-field without suffering a shipwreck.
