

Innovative and successful! - Techtexsil 2019: Our review

As international trade fair for technical textiles the Techtexsil offers every two years a forum for innovative products and processes. We too were present with our stand, this time in the new trade fair ambience, which received throughout positive feedback. Because of the high visitor frequency we were pleased to have numerous guests and to lead many successful discussions! Thereby our PUR-novelties from the VOWAled and VOWAtec areas were of special interest. The VOWAled Pasco stock collection is a solvent-free PUR upholstery imitation leather with a particular soft grip and elegant grain. In the VOWAtec **medilind**[®] product range we are presenting two new hygiene textiles that are HF-weldable, highly flame resistant, bio-compatible and also REACH-/ROHS compliant.

Strong appearance! - With new diversity at the Interzum 2019

The Interzum is the world's leading trade fair for furniture manufacture and interior fittings, with constantly growing numbers of visitors. This year we were able to present no less than three novelties at our stand! Firstly, the expansion of our established Amalfi object collection with eleven modern colours, so that our customers can access a palette of 44 colours. Furthermore the new VOWAled Pavona object stock collection was presented for the first time, which stands out through its high flame retardancy according to DIN 4102 (BI) and through a new and attractive leather grain, as well. Pavona is available in 13 modern and classic colours. And last but not least, we attracted special attention from our interested visitors with the new Polino imitation leather. Due to the equipment with Avalon Vinyl Save stains can be removed without leaving any residue. Additionally, the subtle floral print makes occurred stains disappear optically and beyond that, it provides an elegant and modern look.

If you are interested in samples or if you have any questions, our sales team will be pleased to assist you!

Please note our summer holidays
from 29 July - 08 August 2019!
